REMARKS

This paper is responsive to the Final Office Action dated June 15, 2005.

Reconsideration is respectfully requested.

At paragraphs 1 and 2 of the Office Action, the Examiner rejected claim 13 under 35 U.S.C. 102 as being anticipated by United States published patent application number 2002/0091855 A1 of Yemini et al.

Claim 13 has been canceled herein.

At paragraphs 3 and 4 of the Office Action, the Examiner indicated that claims 1-12 are allowable.

In view of the present amendments, all remaining claims are now respectfully believed to be allowable. Favorable action is respectfully requested.

Applicant has made a diligent effort to place the application in condition for allowance. However, should there remain unresolved issues that require adverse action, it is respectfully requested that the Examiner telephone David A. Dagg, Applicant's Attorney at 617-630-1131 so that such issues may be resolved as expeditiously as possible.

For these reasons, and in view of the above amendments, this application is now considered to be in condition for allowance and such action is earnestly solicited.

Respectfully Submitted,
